January 2018

Dear Parents and Guardians,

I first want to thank you for trusting us with your children each day. It is our distinct honor and privilege to play a role in nurturing our students' development, and it is a responsibility that we do not take lightly.

As we look ahead to next year, I invite you to continue joining us in providing a different kind of education for your children... one that gives them a rootedness in God as well as quality academics. Our Catholic faith and morals are infused into all curricular areas each day. The formation of our students' spiritual lives is as crucial to their development as is their academic foundation. At Saint Kateri School we make it our mission to provide both, and we count on you, as parents and guardians, to collaborate with us in this endeavor.

This quality, faith based alternative education is open to any parent or guardian who wants their child to have an education with moral values in a family atmosphere. Who better to make this long-term investment in than your child? To assist you in this investment, financial aid is available through FACTS Grants and Aid.

As research states, one of the characteristics that our Catholic Schools provide is that of "social capital." The fact that our schools create a bond among parents, teachers, staff, and children is well documented. We form a school/faith community because all of us have one common goal: to help form our children in Christian Catholic moral values and to provide them with excellent academics in a safe environment from Preschool to Grade 5.

Students at SKS also have the opportunity to learn how to serve each other as well as the community through various service projects during the school year. Extra-curricular programs are also available, including Science Club, Lego League, German, Spanish, Running Club, CYO, Coding Club, and Scouts. SKS also offers Extended and Before Care from 7 am to 6 pm for full time students.

I invite you to remain a part of our SKS Family and give your child a complete and comprehensive education - academically, morally, and spiritually - to prepare them for Middle School and for life beyond. We are the building block upon which they can forge ahead and continue their excellent education as they move into the future.

Sincerely,

A handwritten signature in blue ink that reads 'Sister Kay Lurz'.
